The screenshot shows a website homepage with a top navigation bar and a main content area featuring a horizontal product slider. The slider contains four items: a MacBook, an iPhone, an Apple Cinema 30", and a Canon EOS 5D. The iPhone is specifically highlighted with a green arrow pointing to its product page link in the browser's address bar.

[Link to product with ID 49](https://opencart.abstracta.us/index.php?route=product/product&path=57&product_id=49)

The browser's developer tools are open, showing the HTML code for the slider. A green arrow points from the highlighted iPhone image to the corresponding line of code in the DOM, which contains the product ID 49.

```
<a href="index.php?route=product/product&path=57&product_id=49" class="link">Link to product with ID 49</a>
```

The screenshot shows the product page for the Samsung Galaxy Tab 10.1. The page includes the product name, price (\$241.99), product code (SAM1), reward points (1000), and availability (Pre-Order). The browser's address bar shows the URL for the product page.
