### Description

#### Preconditions

User has opened the registration form via **My Account → Register**.

#### Steps to Reproduce

1. Enter digits into the **First Name** and **Last Name** fields (e.g., "1").
2. Fill in all other required fields in the registration form.
3. Click "**Continue**".

#### Expected Result

The form should display a validation error indicating that numeric characters are not allowed in the First Name and Last Name fields.

#### Actual Result

The account is created successfully, even though the name fields contain digits.
