Description

Preconditions

User has opened the registration form via **My Account → Register**.

Steps to Reproduce

1. Enter a special character (e.g., #) in the **First Name** field.
2. Fill in all other required registration fields.
3. Click **"Continue"**.

Expected Result

A validation error is displayed indicating that special characters are not allowed in the **First Name** field*.*

Actual Result

The account is successfully created even though the First Name field contains a special character.
